DOMINATE HEAVY MECHANICAL

CAPABILITY STATEMENT

Mobile diesel fitting & field maintenance

OWNER-OPERATED. DIRECT COMMUNICATION.

Dominate Heavy Mechanical provides owner-operated mobile servicing, repairs and field support for mining, civil, agriculture, road transport and light vehicles. Based in Mildura, we support Red Cliffs, Sunraysia and regional sites by arrangement.

Owner and fitter **Dominic (Dom) Gauro** brings **17+ years of hands-on mechanical experience**. Deal directly with Dom to agree the job scope, site access and timing.

17+ YEARS
Hands-on mechanical experience

OWNER-OPERATED
Deal directly with Dom

MILDURA & SUNRAYSIA
Regional sites by arrangement

CORE CAPABILITIES

Mobile diesel & breakdown support

Fault-finding, mechanical repairs, component removal and refitting, with call-out response arranged to suit the job.

Servicing & shutdown support

Scheduled servicing, inspections, defect repairs, maintenance backlog and extra workshop or field support.

Hydraulic systems

Diagnosis and repair of leaks, hoses, fittings, cylinders, pumps and steering-system components.

Civil, road transport & fleets

Servicing and repairs for civil plant, trucks, trailers, floats, cars, work utes and 4x4s.

Site-support equipment

Servicing and repairs for generators, lighting towers, pumps and elevated work platforms.

Trailer & canopy projects

Custom trailer and canopy projects, timber decking replacement and agreed equipment modifications.

ALMOND & FARMING EQUIPMENT

Sweepers, harvesters, pick-ups, shakers, rock separation machinery, tractors and other farm equipment.

Machinery support includes JCB, DEUTZ, New Holland, Kubota, TENIAS harvesters and John Deere.

EXPERIENCE & ENGAGEMENT

Field experience. Contractor support.

SELECTED WORK

794AC body pads

Inspection & adjustment

Case 645 fire suppression

System repairs & regas

HT91 float trailer

Timber decking replacement

Other documented work includes a **784B steering pump rebuild**, **Kubota M108S PTO clutch pack replacement** and **New Holland / Martignani sprayer controller setup**.

TRADE & SITE BACKGROUND

- Certificate III in Automotive.
- High Risk Work Licence.
- Mine-site and ERT experience.
- Public safety, road-crash rescue and wildfire response training.

Licences, qualifications and contractor documents can be supplied during onboarding.

HOW WE WORK

Scope & scheduling

Confirm equipment, fault, location, access and required dates.

Site work & safety

Use agreed site procedures, isolations, hazard controls and task documentation.

Clear records

Record job notes, photos, defects and service histories for maintenance planning.

Scheduled maintenance, shutdowns, project work and overflow support. Availability, scope and site-specific requirements are agreed before mobilisation.
